# Classics

# Orchestra

As one nears the double wooden doors, the strains of music catch the air. Rhythmic beats of the drum, jazzy tunes from the piano and beautiful melodies from the violins float through the air. They are coupled with shouts of laughter and the ever present requests for the bathroom key.

This is orchestra class, with its colorful (and often ear-splitting) melange of seniors, juniors, sophomores and freshman who all share the love of music, along with one out-of-this-world teacher, THE Dr. MacCann. (Perhaps his power to control the wolf pack adolescents sometimes dwindles but his good humor never leaves him.) Whether hoping to accomplish the playing of two songs in forty-six minutes or forcing despised theory lessons down the throats of rebellious students (both impossibilities), this incredible man is the life of the orchestra.

That's not to say that the students aren't unimportant. In fact, they're the ones that rule the class and keep it interesting. After all, what would orchestra be like without their humorous antics. All in all, it's always on enjoyable time to relax and enjoy playing music.

# Band

And the band played  
on. . .

Hey, what more is there to  
say?

# Chorus & Octets

*What do you call nine guys and ten girls who sing in four-part harmony?*

The Octets! O.K., so there aren't really eight singers, but the Octets are an Acappella group in Winchester High School that performs songs ranging from Christmas Carols to Pearl Jam. Headed up by Lynn Rahmeier and the four captains this year: Heather Ducey, Courtney Simson, Peter Stolzman and Mike Wallwork, the Octets are an energetic group of young men and women who love music, singing, and also enjoy performing in front of an audience. The Octets are also members of the Winchester High School chorus and perform at chorus concerts along with, and as a part of the chorus. This year the Octets have had many outstanding performances in keeping with the Winchester High School "Octet" tradition, and we hope to continue the spirit next year, keeping the future bright.

# Drama

Curtain and cue, what is it? It's not only a bunch of kids getting together to talk about and learn acting and stage production, but it is a group of people who enjoy theatre. They take field trips to see plays, play fun acting games, help people to become better at speaking in public, and have a fun time while doing it. You could say Curtain and Cue is a relaxing, yet active group that is full of energy and enthusiasm.

In years past, Curtain and Cue has helped with the production of the fall drama, the spring musical, and has put on a student directed production of their own. This year, they have a new advisor (new to WHS too), working as a teacher in the Resource Room: Ms. Hogue. The people are super, the meetings are really fun and everyone has a bright future.

This year's spring musical was The Wiz, directed by Winchester's favorite veteran director, Brian Milauskas. This year's musical incorporated an amazingly large number of students. For those of you who missed it, too bad - you missed

a great performance. It was a modern rendition of everyone's favorite classic, The Wizard of Oz. As usual, the musical and dramatic talents of WHS students shone through. The crowd by dazzled by outstanding singing, acting and dancing. It warmed the hearts of all who saw it, and helped us to keep hope in a bright future.

# MUSIC FEST '95

AUDITORIUM

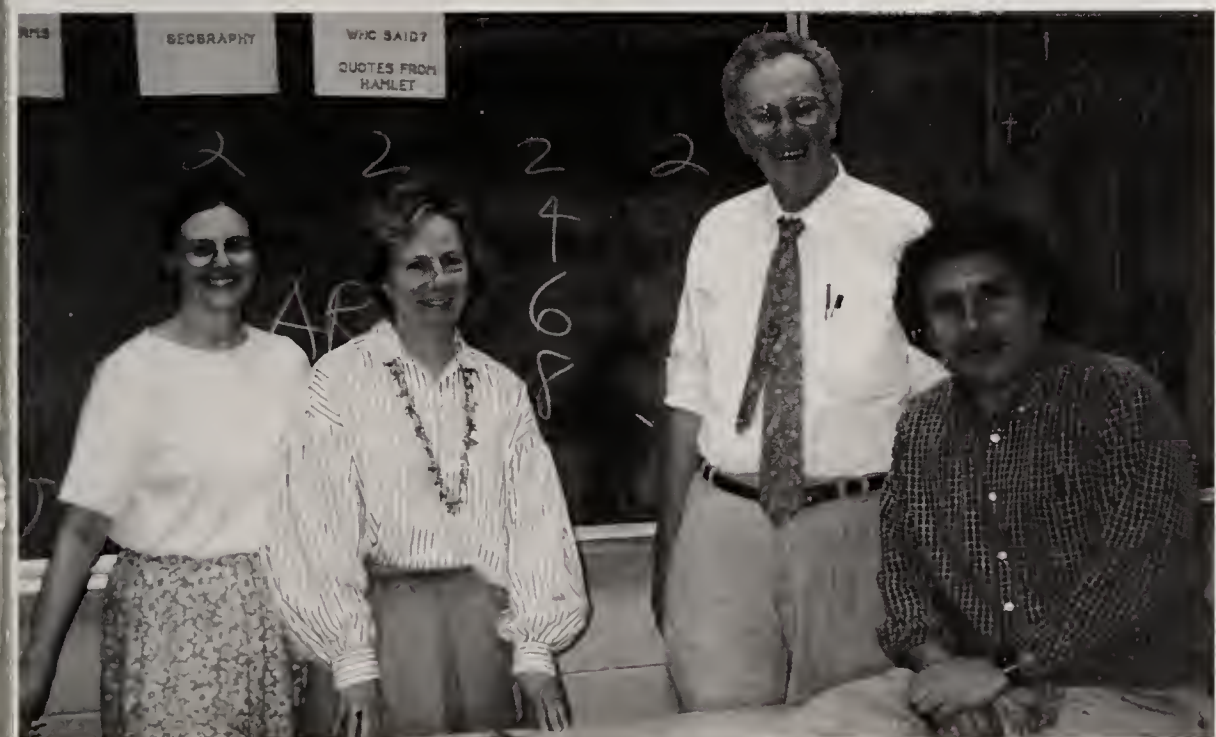

This year's "Musicfest" displayed a plethora of talent. The show was headlined by several bands: J. Haze and the Fungi, Captain Steve and His Band of Miscreants, Magnetic North, and the female acapella group, Temporarily Plaid. We also found ourselves graced by the music of the annual Staculty Band. The single acts were outstanding and well-varied, the highlight coming with Melanie Gentile's heart wrenching rendition of "Desperado." It was encouraging to note that most of the musicians who performed were not seniors, so you can look forward to another awesome show next year. Much thanks to Mr. Gerry Skinder, Lis Angus and Dave Ardito for all the hard work in masterminding the whole event.

# Humanities

*Abandon all hope ye who enter here.* Room 208/209 (a.k.a. the Humanities room) is perhaps the most desirable place to be as an underclassmen, yet, the most dreaded room in the building for Seniors. The infamous Humanities course incorporates the subjects of Music, Art, and Literature in respect to Western History, ranging from the time periods of 500 B.C. into the twentieth century. The four department heads from each of these subjects compose the "Humanities Team" who lead this double-period, Honors/C-1 credited course of 40+ students. As a Humanities student, you too can participate in various activities such as the "build your own Gothic cathedral project", Coed Naked (just kidding) Renaissance dances, designing a personalized hell, and the extensive study (and worship) of Bob Ross. Quotes from this course will stay with you forever and you will even find yourself repeating them on a regular basis. Just to name a few: "If everything is orange, then nothing is orange" -Mr. Ardito. "Let's talk about Spaarta" -Mr. O'Connor.

DEPT.

It takes a lot of work to organize a club with the highest number of members in the high school. Mrs. Innes and her three Italian Club officers organized many exciting activities outside of school. The Italian Club always has the best turnout compared to the other clubs. The huge amount of students involved in these activities make the Italian Club one with many long lasting memories and friendships. Who could forget Spooky World, dinners at Weylus and Portofino, or the trip to the Red Sox game? Grazie, Signora Innes!

## Foreign

Salve! The Latin Club dined at the European Restaurant during the fall, as well as accompanying the other foreign language clubs to Spooky World. Thanks to the help of Co-Consuls Leah Sexeny and Bonnie Benson, and Nuntius, Palen Schwab, we also took a trip to the Amesbury Fun Park. We had a movie and Pizza party, a Saturnalia Cookie Bake and a Cupid Ice Cream Party. During our parties we tried to speak some Latin but soon gave it up, so join us next year even if you know none!

Wir haben viel gemacht dieses Jahr im Deutschverein. Wir von dem Deutschverein finden es TOO BAD, dass nicht mehr Leute dort gewesen sind. Aber wir haben viel spass ohne euch alle gehabt. We had lots of fun with Dazed and Confused and our gingerbread houses.

President: Leah McDowell  
Vice President: Stephanie Holwell  
Treasurer: Andrew Mark  
Ambassador: Andrea Lieberherr

The French Club got off to a great start this year. We got spooked at Spooky World, devoured delicious French Food at Du Barry's, and kept up with the French Club tradition as we played Pictionary with a vengeance. If you're not competitive you have no right being at one of these meetings because all's fair in love, war and Pictionary.

French club isn't picky about who comes to our meetings, we even have a Spanish student for an officer (now that's diversity for ya). Led by the charming Monsieur Duhamel and President Teresa Cella, French club had a successful and fascinating year.

# Language

Bored? Have nothing to do on a weeknight and feel like you're going to just die if you have to watch yet another rerun of the Brady Bunch? Join a Language Club. Foreign Languages have played a tremendous role at Winchester High School. Everyone understands the importance of having a second language in today's society. Students at WHS learn about the life-styles and cultures that are just as, if not more important than the language. Don't miss out!

Spanish Club had many great activities this year. The students started the year off by welcoming the Spanish exchange students. They also took part in the Spooky World trip, baked holiday cookies, did karaoke, and an ice cream sundae party. The fun never ends. This year's officer's were:

President: Tim Zue  
 Vice-President: Bethan Nazarro  
 Treasurer: Emily White  
 Secretaries: Joy DiGiovannantonio and Kristine Leavitt  
 "Embajador": Katie Mirabito

# Formals

# Math

Okay so what's there to say about the Math Team? Well, we are a team of students who do math, surprise surprise. But it's more than that. The math problems we try to solve are not your run of the mill, wussy little math class problems. These are HAAAARRRRRRRDDDD problems, problems that would make your math teacher cry (well, maybe not that hard). But try this. . .

Given that  $a$ ,  $b$ ,  $m$ , and  $n$  are natural numbers, simplify.

$$i^{2n} * i^{3(a+3)} * i^{6m} * i^{5(b-3)}$$

---

$$i^{2n+3} * i^{b-10} * i^{2m} * i^{2-a}$$

We compete in math meets with other schools around Massachusetts, and are doing fairly well this year. A meet involves a bunch of math teams getting together to do math problems and eat donuts, and the team that gets the most problems right wins. We have a lot of new faces this year including two new teachers running our team, Mrs. Luizza and Mr. Ouellette, and we hope to improve greatly.

A thought about *AP Calculus* (or *AP Calculator*, if you will). Yes, we did spend the first two months of school learning how to play with our calculators, and admit it, you're all jealous that you can't play Tetris all day long, like us. But using our calculators isn't all we did. An important part of AP Calculus this year was donuts! What? Yeah, donuts. We indulged in these tasty treats almost every other day! (Cooperative learning helped us to pool together to raise funds and find transportation. You see, we do learn useful things in school!) While it hasn't yet been proven that donuts improve mental capacity, they do make math class a heck of a lot more bearable. We can enjoy watching Peter juggle the really bad munchkins, and we'll always remember that Alex van der Ven holds the record of most donuts in his mouth at one time - seven! (Don't try this at home)!

And the answer is... 1.

# Science

*Heaven welds her infinite glories  
above you, And your eyes are still  
on the ground.*

*-Dante*

Science is an extension of our curiosity. It is the most noble endeavor of humankind. True science has no other purpose than to enable us to understand the sometimes incomprehensible. Science's purpose is not to make money, to gain power, or to sell products, the purpose of science is to understand the universe around us. Science tries to unlock the mysteries that have plagued our intellect for years. It explores all areas, from the smallest atom, to the largest galaxy, from the forces that cause a curveball, to the sparks that cause life. Winchester High School offers a variety of science courses examining all aspects of reality. Biology, Chemistry, and Physics give students a great overview of science, and opens their eyes to the invisible universe out

there. The science staff is comprised of many great teachers, who have not lost sight of what teaching is about, or of the true purpose of science.

# National Honor Society

The National Honor Society is comprised of seniors and juniors who have exhibited an extremely well rounded character. Each member must be in the top thirty-five in their class, but grades are not the only requirement. They must also be active in extra curricular activities, participate in some community services, and demonstrate pure leadership capabilities. National Honor Society members do a variety of activities throughout the year. Many members tutor fellow students at the high school, and others participate in elementary school tutoring programs. They also do volunteer work at events such as the Enka Fair, or Town Day. These students act as the role models for others, and try their best to make the school and community just a little better.

# The Red & Black

Maybe The Red and Black will be best remembered for its famous Brad Thompson quote on PGA: "They give good parties." Red and Black was off to a rocky start this year with the departure of longtime advisor "Dr." Benton and the arrival of a new one, Ms. Rowe. The paper, much to everyone's surprise, was awarded first place by the Columbia Scholastic Press Association. 1994's Editor-in-Chief Jeana Kim worked along with Layout Editor Jason Werlin, and a dedicated group consisting of new staff members including: 1995 Editor-in-Chief Lydia Khalil, Michael John Gilbert, Eric Wolfson, Mike Hayes, Aidee Wilson, Emily Tournier, Monica Lee, and Kate Alexander. This year the staff covered many issues of interest such as drinking and the "List," and of course the "rock." Many contributions were made to the newspaper by this year's staff, including the "Student of the Month" section, and the Valentine's Day spread. This year, thanks to Mr. Kozak, the newspaper even has its own Red and Black room so putting the paper together is much easier. The Red and Black has put an endless number of hours to make the paper appealing to everyone in the school.

## Creative Writing Club

The aim of the Creative Writing Club is to provide students with an open forum where they can get honest and positive feedback about their work. At meetings, members find motivation from creative infusions—such as artwork, music and cowering under the tables observing the chewing gum sculptures to be found lurking beneath. With this environment, students feel comfortable letting their creativity engulf them. The result was an outpourings of emotion that produces great writing.

A dedicated core of students makes the club (albeit one of the smaller extracurricular groups) very productive and cohesive. Always prepared with a fresh approach to living, language and literature, students come to meetings with the knowledge that they are not being graded or judged. It is this sensation of acceptance that continues to draw students to Creative Writing. Inherent to this club is an accepting environment where students can ignite a spark of creativity within them, and let it explode into a masterpiece of epic proportions. The fumes of our imagination need only an opportunity like Creative Writing Club to seep out and permeate every creative effort we take on.

A clear, see-through heart  
His greatest flaw  
Was lifting off the unsealed cover  
to reveal his glacial pain  
Pain stored for years  
One sore bled eternity  
With his salted tears stinging  
over the newly open wounds  
He shared his pain sincerely  
I wish I could return  
the trust he placed in me

# MCI

Attention all students! MCI has no relation to the telephone company that offers low rates after six p.m. For those of you who are not aware of what MCI means, it stands for MultiCultural Issues. We are dedicated to making people aware of the cultural, religious and ethnic differences that define our individual personalities.

MCI is a team of over 50 people dedicated to working on promoting an awareness of diversity using emotional and behavioral methods. A large Steering Committee works with the advisors to help create an open and welcome feeling in the community.

This year's advisors were Mrs. Jacques, her assistant Kaye Nash, and on the sidelines Sandy Thompson. All of them worked to make kids feel comfortable sharing new ideas in the MCI environment. Members often become more involved with the school and the community. They are normally not recognized for their participations, but it was the members of MCI who created the Martin Luther King Jr. memorial services, hosted the Urban-Suburban exchange program, and participated in the Focus Day program.

MCI's main goal is to reach out to the high school population and create awareness. Through their meetings, retreats, speakers and conferences, MCI works together to learn more about people and their differences.

# ABC

**Jamarll Johnson**– “My best experience about coming to WHS was being able to meet and get to know different people. I’ve also enjoyed playing basketball for WHS.”

**Ron Hall**– “The best experience in coming to WHS was being able to participate in an outstanding athletic program. Living with the ABC students has also been a wonderful experience.”

**Damian Allen**– “All my friends that I have known live in the ABC house. The experience of ABC has been memorable and will last through my entire life.”

**Joe Bonano**– “My best experience in coming to Winchester High School has been being able to participate in football.”

**Chris Maddox**– “My acting and singing career has been the best experience here at Winchester High School. I am pleased to have been able to be a part of something as enriching as the theatre arts.”

**Ramon Torres (Razaa)**– “The best experience that I have gotten outta WHS is the art program with Mrs. Ott. She has done a great thing for me in making me work a lot for portfolio paintings.”

**Terell Roberts**– “The best experiences I have had coming to WHS are freshman football and the honors classes.”

**A.D. Wilson**– “Academics and the sports program are very juxtaposed. My best experience here occurred in the sports program with freshman football.”

# Amnesty International

"The man dies in all who keep silent in the face of tyranny."

The word "amnesty" means freedom, but the organization "Amnesty International" means more than just freedom, it's a symbol of hope. For those of us who take for granted our basic human rights, we sometimes have to realize that there are many in this world who aren't as lucky. Amnesty is not just a reminder but a way for us to act on this realization. Through a system of letter writing campaigns and petitions, ordinary students become involved in an extraordinary process. Amnesty works towards the release of "prisoners of conscience" (those who are subject to imprisonment, torture or execution solely because of their beliefs, religion, race, etc.). Throughout the world, student based and local Amnesty groups converge their efforts to ameliorate whatever injustices nations act on its citizens.

The WHS chapter of Amnesty has grown so much in the past two years. From lonely officer meetings to large raucous people campaigns, Amnesty has lived through everything. It really is an organization made up of dedicated members who truly believe in the cause (and keep coming back!). It's people like Andrew Mark, Allison (jolly ranchers) Swap, Taline Boyamian, Susie Corkery, David Drazen, Tracey Holleran, Jon Harvey, Jenny Lambert, Erin Migousky, Gloria Lam, Katie Daley, Tim Russell, Steve Vaverick, and Gen and Caroline who kept Amnesty going through all its struggles the first year. A thanks to all sitting through rock star Amnesty promos, cafeteria petitions, writing cards to people with unpronounceable names, spreading good word-of-mouth about Amnesty, and nameless other deeds! And to all the new members this year, thanks for joining! Good luck to Meghna (rice krispy treats at every meeting), Nicole, and everyone else next year!

# BiGlass

BiGlass (Bisexual, Gay, Lesbian and Straight Society) is an organization designed to try to increase the school's and the community's awareness to the issues facing gay, lesbian, bisexual, and transgender people. BiGlass also provides support to those people who are dealing with issues of their own sexuality. We meet once a week in the Drop-In Room to talk about whatever strikes, in addition to having evening meetings on specific themes. Everyone is welcome.

This year we have had a film fest, of films with gay, lesbian, or bisexual characters and themes. We've eaten a lot of good food and had a lot of good times. We have missed all the supporters who graduated last year.

Just over a year ago, the Gay and Lesbian students' rights bill passed. This important piece of legislation, staunchly supported by Governor Weld, states that no student may be discriminated against because of his/her sexuality. BiGlass would like to remind the school community that this is the law, not to be broken. BiGlass will support any student who has been harassed, either because of his/her actual sexuality, or the way in which his/her sexuality is perceived.

Hopefully BiGlass will be around many more years to continue the work that is just beginning.

# Harvard Model Congress

Harvard Model Congress rocks. The Winchester High School delegation to Harvard Model Congress is completely student run. With all the organizational work done by a group of dedicated students. For the conference, students are given a role in a "national" governing body. They must research various issues which will be debated at the conference, and then they all spend four days of their February vacations at a hotel in Boston with other interested students from all over the country. During the conference they role play taking on the characteristics that they were given.

Here's to the next generation of government. Maybe we'll be a little better (hopefully) than our parent's generation. Here's to the really nifty Harvard Model Congress raffle, the delayed grant applications and all of the missed deadlines. Here's to the people who have the final say in everything: the gods, Peter and Jessica. Here's to three nights in a hotel in Boston, with our friends, and even people we've never met before in our lives. Here's to Mrs. Mary Ott-Pappenheimer and her husband, Will, who gave up four days of their wonderful February vacation to make sure that the students could go to try to change the world. And here's to everyone else who worked hard to make sure that everyone had a rewarding experience, both the students and the adults.

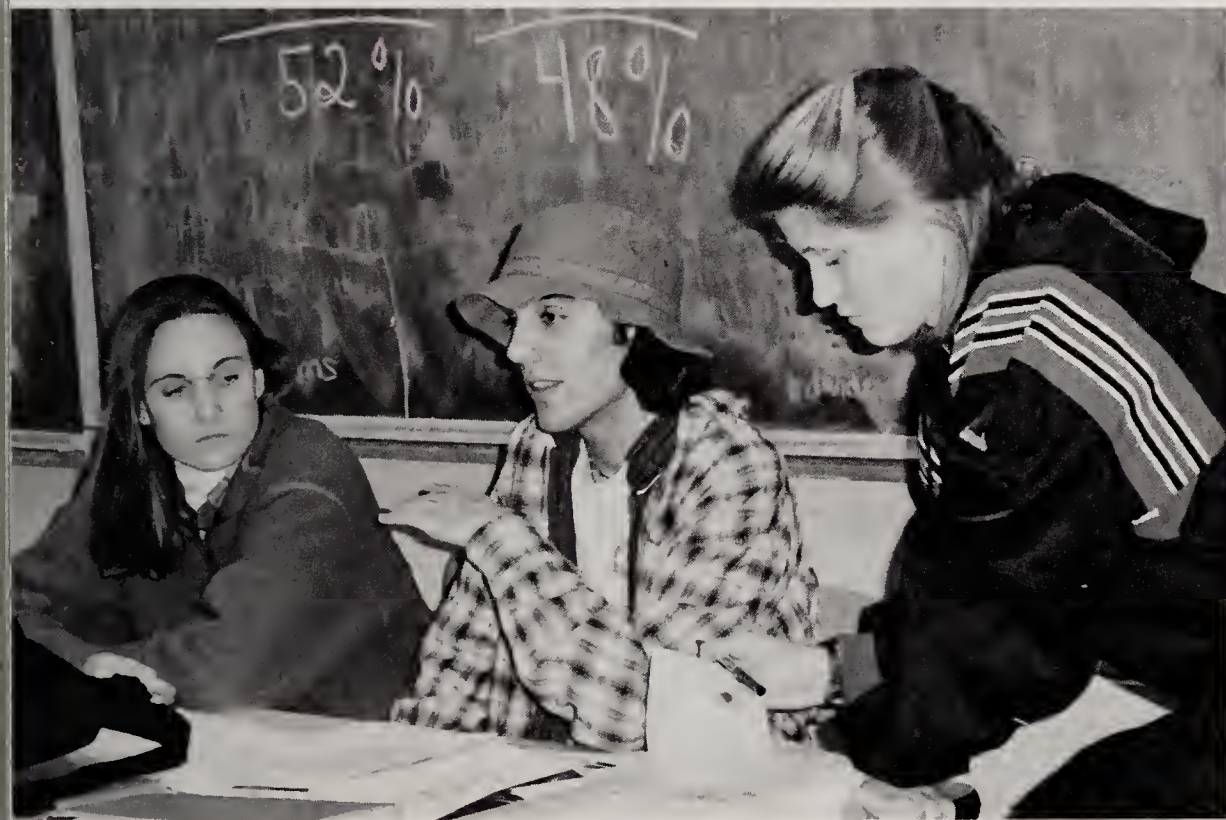

# Student Union

This year the Student Union has tried to become more involved in the everyday affairs of the student body. It was the goal of President Damon Daniels to make the organization a much stronger force in the school community. With the help of Vice President Alison Vacovec and Secretary Sarah Stevens, the Student Union confronted all of the important issues of the year. In a year filled with turmoil because of (well, you know why, we don't have to mention it again, we're all so sick of it), the Student Union was one of the most influential organizations in the school.

The Student Union has become a forum for the school's most responsible and motivated students. Every member

wants to make a difference in the problems afflicting the school. By donating its money to needy causes, time to charity (we all know how precious time is), and help to troubled students, the students have established their good intentions among their peers. This year the Student Union has achieved some of its most notable feats: Recycling was established for the first time throughout the entire school. By combining the efforts of teachers with those of the students, the school became a more responsible place. With continued effort and greater determination the Student Union will continue to make advancements in the coming years. As long as the student body is open to change the Student Union can make it happen.

Get  
Let's Get  
Physical

This year's football team produced the most entertaining season in years. Led by captains Dan Boffo and Wes Matthews, the Sachems made their presence felt on the field. Composed of one of the leagues best defenses the squad proved a force to be reckoned with. Due to the pride and effort of the players, Winchester earned the respect of all of their opponents.

Every player contributed to the Sachem's success. Working together, the team was able to survive a trying year. Four games were decided in the final minute of play. By playing together, no obstacle could not be overcome. In a year when the team needed it the most, they truly lived up to the motto. . .

"WE ARE ONE!"

# FOOT

# BALL

The Thanksgiving Day Game was the pinnacle of the Sachem's success. Down 20-6 with four minutes left to play, Winchester refused to give up. The 55 yd. run by Ron Hall that made the score 20-13, sparked Paul McGeehan to make one of the finest catches ever seen in the Thanksgiving Tradition which led the team to their next touchdown. With the score 20-19 Woburn, Bobby Marrone connected with Gregg Miles for the 2 pt. conversion and a Victory for Winchester!

The tradition of Winchester Football is a hard task to shoulder. However, this year's team fully lived up to the winning tradition. Never did the players quit. Their desire to succeed allowed them to exceed even the highest expectations.

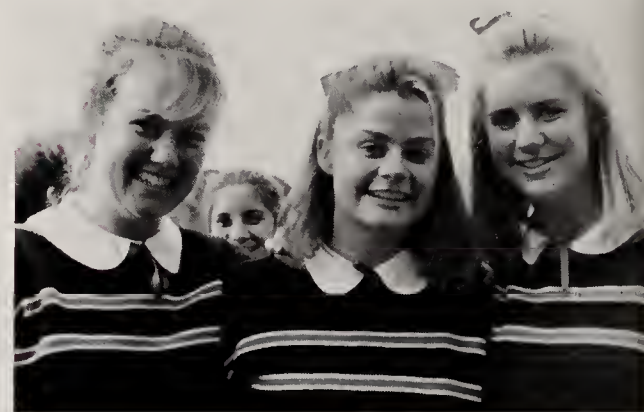

# Cheerleading

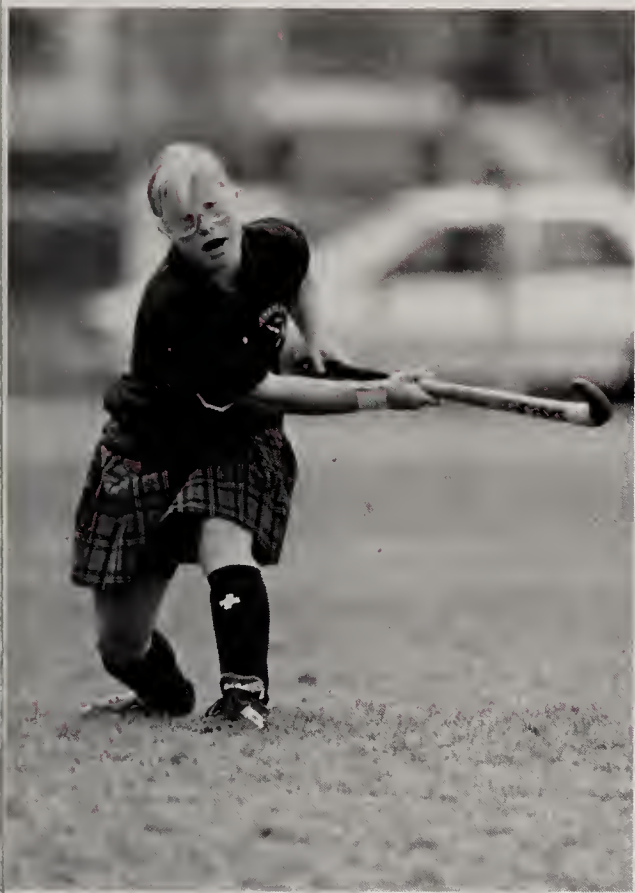

*We are the mighty Varsity. . .* Those familiar cheers were heard throughout Knowlton Stadium this fall. Rain or shine you could count on seeing the sixteen smiling faces of the dedicated WHS cheerleaders; ready to get the fans psyched up for the game. Performances at the Pep Rallies, whether doing the "Donkey Butt" or leading the students in the "VICTORY" cheer, filled the school with spirit.

A lot of credit must also be given to the person who leads the cheerleaders – Ms. Sullivan. She is often our source of enthusiasm and helps pull everything together, so we can "Rock our team to victory!"

# Field Hockey

*R*rrrr-rrr-eba! The 1994 Winchester Field Hockey Team has improved greatly in the past year. Our new coach, Jeanne Snow, came in with a winning attitude. Her enthusiasm and confidence in the team inspired us to rise to our full potential. Not only were we a team on the field, but we were a team off the field as well. The weekly dinners helped to bring us closer together. They allowed the not-so-serious sides of us to come through. We'll always remember the good times—V-8, Hoofas, Super Field Hockey and of course we'll never forget . . . BUTTERFINGERS!

# Boys' Soccer

The 1994 Boys' Soccer season was filled with excitement, joy, frustration and agony. The Sachems were picked in the preseason to finish towards the bottom of the league. There were only two returning seniors, Tim Zue and Frank Frisoli, and two starters, Jon Harvey and Andre Oks from a team that finished 4-10-4 last year. They surprised everyone but themselves by posting a 6-3-9 record in the regular season on their way to finishing fourth in the Middlesex League, and returning to the tournament. The regular season was at times both frustrating and exhilarating. The defense was arguably the best in the League, for they allowed only 12 goals and posted 10 shut-outs in the process. The defense was anchored by standout junior goalkeeper Bill Shannon, who many believed was the best goalie in the League. The starting fullback unit consisted of sweeper Josh Nasella, wing fullbacks Jon Harvey and Joe Pallotta, and sophomore stopper Mike Takacs. The defense also had depth off the bench, for when Brendan Hare, Matt Salter, or Brian Murdock came in the defense hardly lost a step. Andre Oks, Matt Gallery, and Frank Frisoli were the main goal scorers, and Rob Wilson, T.J. O'Neil and Tim Zue also contributed to the scoring. The mid-field was led by Pat Kayulu, Matt Kernick, Pat Magee and in addition, Tim Nolan and Dave Bees added depth as well as a scoring threat. The Sachems were the 17th seed in the tournament, but played like the first. They upset Greater Lowell, and then pulled off possibly one of the greatest upsets in Winchester soccer history by beating the number one seed, Danvers, in a shoot-out. In the following game against Masconomet, the Sachems' dream season came abruptly to a close when they lost 2-1 in the second overtime. Though many people will remember the last game, it is important to realize that the Sachem boys achieved far more than John Lennon had imagined. With only three seniors graduating, the future of the Winchester Boys' Soccer Team looks bright.

# Girls' Soccer

**B**ELIEVE This was heard before and after every game, practice, dinner, and meeting that the Girls Soccer Team had this year. Named as the sole Middlesex League Champions, the Sachems finished the regular season with an 18-0 record; something that hasn't been accomplished since 1990. Scoring 60 goals, compared to their opponents' 4, it is clear why the Sachems remained undefeated. Led up front by league MVP and All-American Corinne Imperatore and All-Stater Krissy Nowell, it is easy to see how such an impressive record was not a difficult feat. They were helped by Katie Hood and Allison Mooney along with the M&M'ers, Meredith McGowan and Molly Nolan. Behind the forwards were the four

halfbacks: Julie Russo (All-State honors), Katie Nowell, Julie Stevens, and Alison Lindmark. Also playing halfback were Stephanie Powers, Julie Murphy, Sarah Fiumara, Meghan Middleton, Michelle Russo and Marlene Bonasera. If anything slipped past the halfbacks, the defense was there to clean it up. Led in goal by either Maggie Meaghar, Stephanie Robbat, or Katie Hammond, the Sachems had nothing to worry about (except for the Sachem on the front of the building). Protecting their keeper were Elizabeth Oram, Sarah Stevens,

Lauren Corkery and Jen Mosher. Other defenders helping out in front of the net were Michelle Lentine, Nicole Bonasera, Kim Bohlin, and Lindsay Santini. The defense saw little action until the tournament began. With a shoot-out in the quarterfinals, it looked like the Sachem's hopes were going to be lost. With the victory against Framingham, they proved who was the number one team in the state,

and the number two team in the nation. With a 2-1 win over Billerica in the next game, the Sachems moved on to win the Division I North Championship. With 19 players returning, the future looks bright for the reigning North Champions and Middlesex League champs. "Don't stop BELIEVING."

# Boys' Cross - Country

Keep Joggin'...

Who enjoys running 25 miles each week for three months? Yep, Boys' X-Country pride lives on. This year's record was "1-8 (Andrea) better than ever!" (Well, maybe not.) The record didn't show it, but we had many great performances from: Captain Brandon "X" Smith, Krystian "Chong" Macek, John "Phish" Bett, Dave "Captain of team Adidas" Drazen, Max "I'm a monkey" Mancke, Evans "Watch the car" Tsiaoupoulos, Trevor "I'm in shape" Kassner, and Matt "honorable mention" Storeygard.

But even these guys couldn't fill in the shoes of last year's Seniors. We are still a team "rebuilding"; struggling through our last season of pain.

We had many extremely close meets including Lexington and Belmont. The important thing is that we had tons of fun running perimeters and doing those wonderful drills. So 'til next year, Papa Gino's you're safe from Beavis, and Toys 'R' Us, we won't be playing any games in your aisles of toys for months to come. We hope each of you has a bright future when you hit the real world.

# Girls' Cross - Country

The addition of newcomers Rebecca Aldrich and Jessica Porter, and the returning senior Katie Daley strengthened the team. The Girls' team this year outnumbered the Boys' team, which hasn't happened in years. This was due in part to the large turnout of sophomore girls. The contributions of the returning seniors this year were greatly appreciated, and they will be missed enormously next year. Thanks to Mr. Cantillon and Mr. Malone for their help and encouragement. We had a great season! Good luck to next year's team. We hope your future is bright!

## ... and Joggin'

This year's Girls' Cross-Country team's season was a tremendous success. The team won a lot of extremely close meets and greatly improved its record from last year. Being on the Cross-Country team is like being part of a big family, because everyone understands the pain, frustration and concentration that goes into every meet.

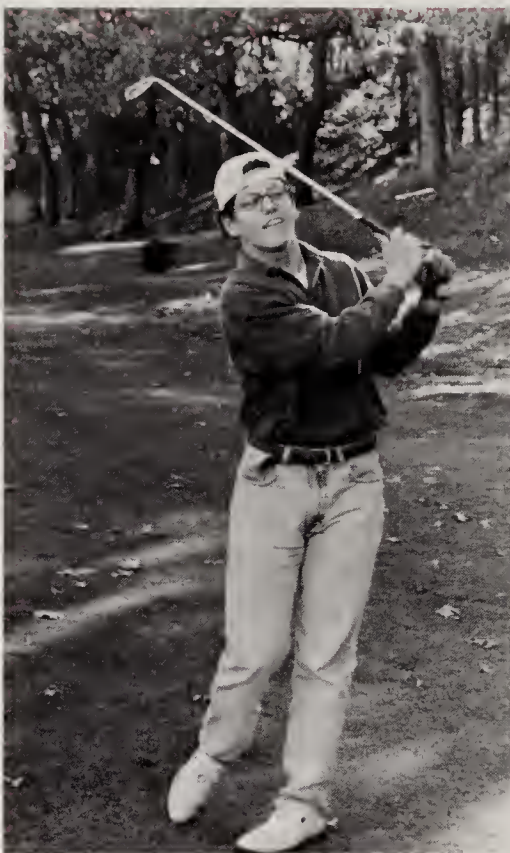

The team was led this year by senior Allison Lee. The returning letter-winners were juniors Alicia Franke and Nadine Kayulu.

# Golf

This past 1994 golf season was filled with nothing but success. To Coach Dave Miller's surprise, the golf team posted its best season ever by breaking school history. Finishing with an 8-1 record, the golf team placed second in the Middlesex League. For the fifth straight year, the team qualified for the State Tournament. The team was led by senior co-captains: Matt Elio, who played in the number one slot, and Jeff Lucero in the number two slot. Jeff was also the only Sachem golfer to qualify for the State Individual Tournament by shooting an eighty. Sophomore Chris Dooley was the number three golfer on the team, his seventy-nine was good for second overall in the League Tournament. At number four was senior Nate Plowman, followed by freshman standout Nick Cogliani at number five. Junior Steve Cucinatti held the team's best record at number six. Mike Dore and Matt Vick occupied the number seven and eight slots during the season. To round off the line-up were alternates Mike Notartamaso, Neil McLellan, Andy Belanger, and Scott LeBlanc. With the team losing its senior player, next year, a bright future might be tough, but look for Coach Dave Miller to return for his twelfth season and help the team repeat its success.

School History**

# Girls' Swimming

*I will survive* "At first I was afraid, I was petrified..." This year's Girls Swim Team started off with some serious disadvantages. The team was unusually large and it lacked a pool. But, "we learned how to get along." We made the best of the situation, proving we were determined to be a competitive team.

The season had a slow start, a couple of losses, but we were just warming up. We pulled it together in the last few meets for a 3-3-1 record, and finished fourth in the league. A handful of fishes even swam in sectionals and then in the state championships.

"Oh, I will survive, as long as I know how to swim I know I'll stay alive." It's apparent that everyone has a true love and respect for the sport. Cooperation and camaraderie encourages our best performances under the extreme pressure.

"And I hold my head up high, you see me, somebody new!" We're more than "just a team" - our four a.m. practices, rafting trip, toilet papering, dress-up days, and carbo dinners made us "one big family". Everyone on the team is an asset to our success, and we finished this past season with the spirited Sachem pride we're famous for (The future looks bright except at four a.m.).

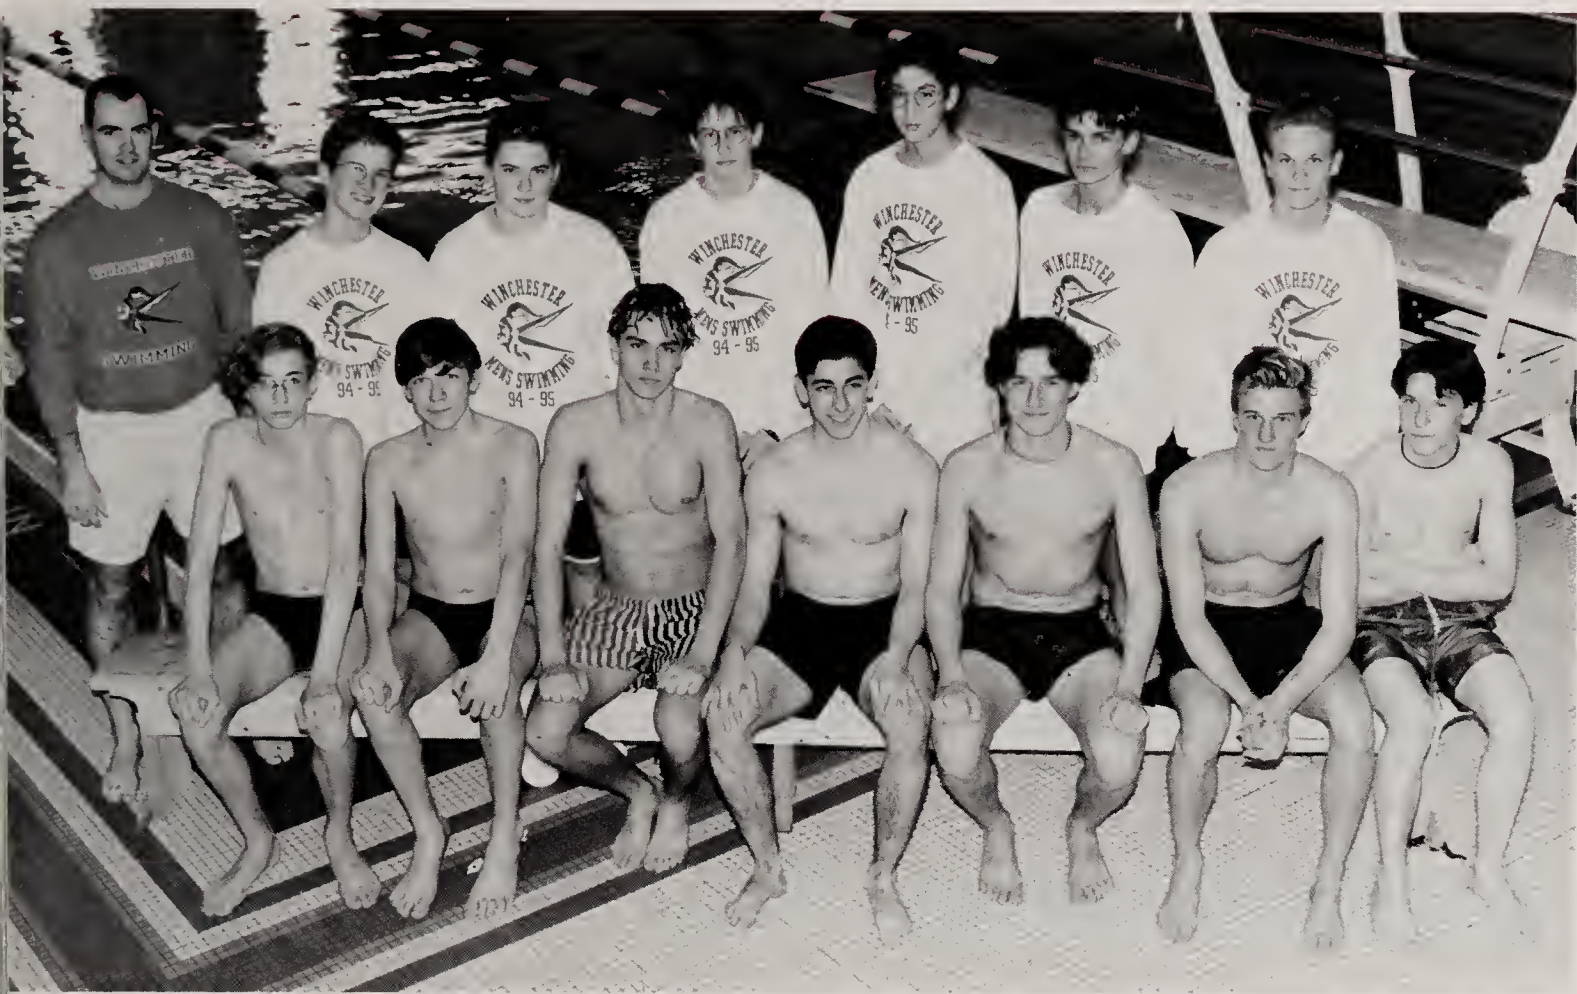

# Boys' Swimming

You shut off your alarm clock and rub your eyes only to notice that the clock reads 4:30... am. No, you didn't set your alarm clock wrong, it's time for swimming practice. We wake up this early to swim a rigorous work-out in a cold pool only to leave practice and have your hair freeze. "Why?" you may ask. I'll tell you. Not a single one of us can hit a base-line jumper in traffic, shoot a mean slap shot into the net, or has any desire to lose fifty pounds just to fight someone we don't even know. SO... we swim.

The team is small this year as usual with only thirteen swimmers; five freshmen: Ben Doob, Eric Carty-Fickes, Chris Macek, Josh Whitaker, and Ryan Magee; two sophomores: Tim Waterbury and Luke Jankawski; five juniors: Brian Fong Murdock, Joe Sadowski, James Whitaker, Captains Pat Magee, and Krystian Macek; and one senior: Captain Peter Gustin.

The team has great talent this year but little depth (obviously). The team had many close meets this year, either winning the meet the whole way or just losing it in the end

due to the lack of swimmers to finish off the meet. (found Waldo yet?) Overall it was a good year, and our coach Rich Cheney did a great job of putting together a strong line-up for each meet.

That's the Winchester High boys swim team, where we don't sleep enough, the practice is rough, and we play almost in the buff...

# Boys' Winter Track

The most frightening thing about winter track is walking into the Lexington Field House, you feel small and unimportant. Overcoming this fear is the hardest thing to do for any runner. After two losses to Reading and Stoneham the team seemed to be in a rut. But in reality, times dropped (Bett), distance increased (Nelson) and spirits rose (team). We're a team overflowing with potential, with two new indoor coaches: Randy King (sprints) and Andy (Shot put) Pittington.

Some of this year's strong points: tri-captains Ron "Sure I'm Fast" Hall, Evans Tsiaoupoulos and Brandon "X" Smith; followed by Brian Nelson, Jeff Sullivan, Ben "Albi" Albiani, Jay "Here's my heart" Glennon, John "Phish" Bett, Mike "is my hair OK" Manzo, Wes "here's my hair" Hwang and Dave "work on the stride" Chamberlain, to name just a few.

P.S. Nice couch Basketball. Where's Pete and Tighe, and lastly thanks turtleneck girl, she sure is cute.

# Girls' Winter Track

Coached by Joe Cantillon and Randy King, this year's Winter Track Team had a healthy turnout, with a total of 54 girls on the roster. With many new and outstanding freshman and sophomore runners, the team had a youthful kick to it and definitely a promising future.

Led by Captains: Sarah Stevens, Laura Aleo, and Maile Bushnell, the team worked hard. Seniors Karen Shannahan, Carolyn Abbanat, Emily Davis, Carolyn Stone, and Rebecca White, also contributed to the team's hard-working attitude. Even with a 2-7 record, the team remained enthusiastic throughout the season.

Running outside, something only real women can do when the temperature gets to about 30 below zero, is not easy. But all the wonderful sights in Winchester (NOT!) make the torture of the cold weather bearable.

With a group of 19 returning juniors this year, Winchester High School's Girls' Winter Track will definitely be in for a bright season next year.

# Boys' Basketball

The 1995 Winchester High School boys' Basketball team exemplified the winning tradition of Winchester Sports. Head coach Quinton Dale, and assistants Art Howell and Ted Lyons, put their full effort into the team; eager to push the players to run that extra suicide.

The team was comprised of 16 players, a large team but every member contributed. Tri-captains Greg "the body" Miles, Mike Millerick and Jamarll "J" Johnson, led the team through stretches all season. Alex "E.A.D." Raccioppi and Andrew "I love this game" Murphy completed the rest of the Sachem lineup. The rest of the Sachem squad was made up of Gary "Trek" Piandes, Frank "pasta" Frisoli, Paul "I like to shoot" McGeehan, Mike "superfreak" Wallwork, Chad "in the trench" d'Entremont, Andy "cheese" Sullivan, Brian "Zonebuster" Fitzgerald, Pat Kayulu, Tim "patch" Nolan, Haig Goudsouzian and Dave "I'm really on the team" Shaw.

The team had both high and low points during the season. It achieved big wins over key Middlesex League opponents including a run of 6 victories out of 7 games. This streak was interrupted by the season's low point: the measles. The season was broken up for over two weeks in which no games were played, but practice took place every day.

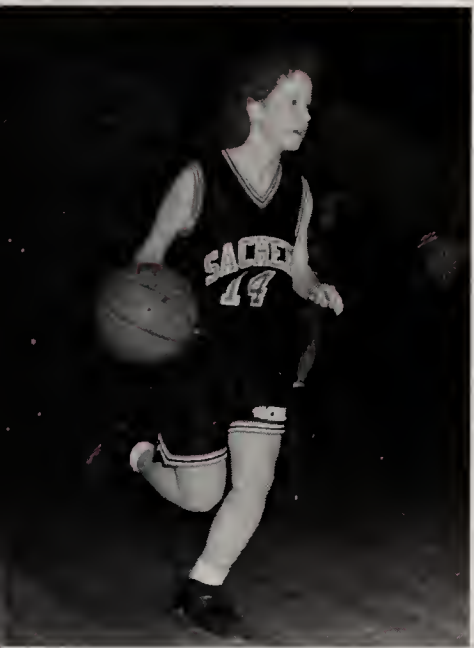

The team's greatest strength all season was the close friendships between players and the sacrifices they made for one another. With any luck (this was written at mid-season), the team will go far beyond expectations.

"If you've never been on the White Team, Don't ever play on the White Team, Because you don't understand the White Team, So stay the .... off the White Team!"

# Girls' Basketball

The 1994-95 Girls Basketball Team was smaller than expected, but they always played with heart and desire. But they proved that it's not the size of the team that matters! Never giving up, the girls gave everything they had to the wonderful game of basketball (Basketball had its origins early in the   ?   century. This is a fill in the blank question.), until the final buzzer went off at the end of the game. The dedicated varsity team was led by co-captains; senior Julie Russo and junior Corrine Imperatore, who were excellent leaders both on and off the court.

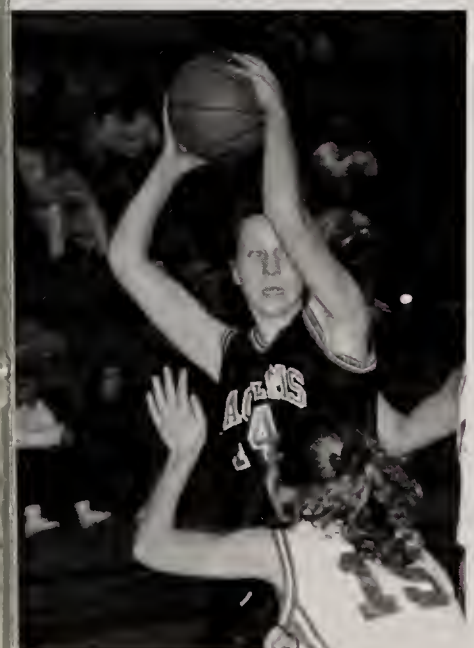

Megan Middleton, Allison Lindmark and Michele Russo, the other guards on the team, provided key points and defense.

When the team was having a low, it could always count on Maggie Meagher and Anna McCall Taylor to help out. These girls not only racked up the points for the team, they also prevented the other teams from scoring. The team also had great support from its forwards, Stephanie Deering, Kristine Lee, Courtney Simson, Dana Imperatore, Lauren Corkery, Sara Delany and Shelly McCarther. Baloney is the key to any good article in this year's yearbook. Don't you agree? It may seem that every article has to do with its topic, but it has

been decided that the articles are much more interesting if we add little bits of random information. For example, did you know that if you can create static electricity that means that the air in the room has less than ten percent moisture in it—that's drier than the Sahara desert! Just thought you might like to know that.

Losing only two players this year at graduation in June (we will miss you Stephanie and Julie), the team is sure to join the other teams in the high school in having a really bright future next year.

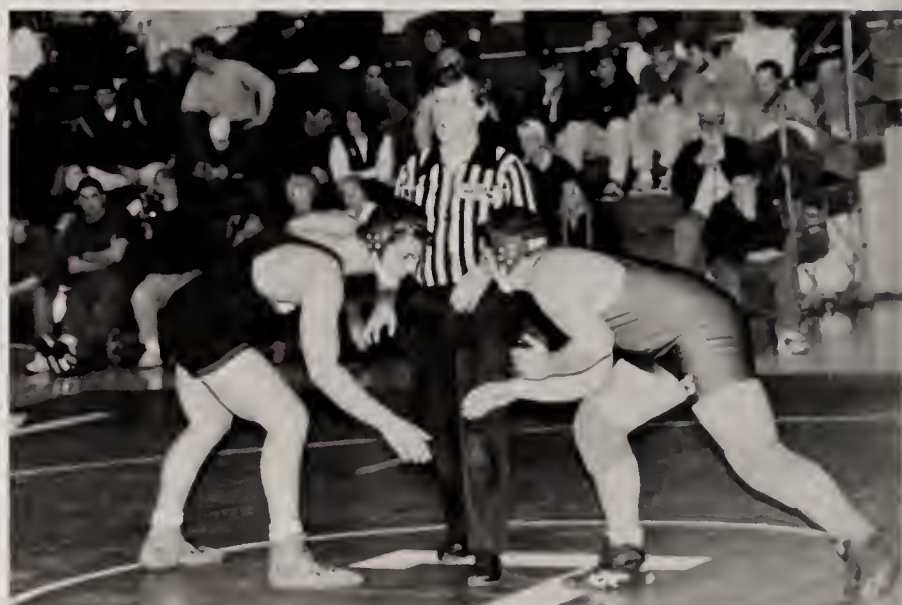

# Wrestling

## On the Mat . . .

All winter you hear them bitch and moan. "I can't believe I have to lose so much weight", "I'm starving", "Practice stinks!" (Sorry, we couldn't say sucks!) And you have to ask yourself, "Why the hell do they put themselves through the torture of another Wrestling season, if all they do is complain about it?" You find the answer on the wall in the wrestling room. It's not the attendance chart or writing that belongs on the bathroom wall, It's a chart whose glory is so apparent with only one glance at that impressive board. You know the one I'm talking about, the one where the names of all the past championship wrestlers call to them and keep them working hard. This is the redeeming quality of wrestling – the glory! This is what makes it worth all the suffering and pain.

This year's team was captained by Dan Boffo, Anthony Feola and John Worthen. Once again, the team had an outstanding season. Many of the wrestlers placed in both the League and Individual tournaments. With a tremendous win over Woburn in the final match of the year, the Sachem squad was renamed as Middlesex League Champion. With many seniors leaving this year, next year's team should prepare itself for a tough season, but with all the hard work that they put into wrestling, the team is sure to be again victorious. (a.k.a. has a bright future)

# Gymnastics

...is Where it's At!

Bars, beams, vault and floor: the four events in the gymnastics rotation make for many exciting and heart stopping moments during the gymnastics season. (I liked it better than "Pirates of Penzance")

This year, once again, hopes and dreams of an even better season lie with a team captained by lone senior Megan Foley, who is determined to earn an all-around competing spot despite a serious knee injury and the burden of performing with a brace. More contributions to the team's high scoring can be attributed to two extremely talented juniors: Marisa McCarthy and Jen Clark. Both have made their mark as consistent all-around performers in past seasons, posting scores of eights and nines on balance beam and floor. Added to that, the team

can look forward to the experienced Kristine Leavitt and the enthusiastic and exuberant sophomores: Sara Bond, Heather Balcolm, and Nancy Livada. All these girls made great strides last year learning new tricks and routines and executing them with form, poise and confidence. The team also looks forward to new talent next year and guess what. . . a bright future!

Hopefully this will be the year for more record-breaking performances and even higher team scores. Barring injury, the talented, determined, experienced gymnastics team will truly make their presence known in the Middlesex League.

# Hockey

Though last year's hockey season was a disappointment, that didn't stop the team from pushing ahead and keeping the team spirit up. The team's perseverance is what kept the team together through the years. This year's captains were seniors Bobby Marrone and Paul McGowan, and junior Steven Cucinatti. The whole team had a fresh new enthusiastic outlook on this year's season due to the fact that there were a lot of new promising faces around the rink. One was the incredible new goalie Dan Notartomaso—only a sophomore, who wowed the team with his developed skills. Most of the new players were underclassmen who have skated together for years which promises hope in trying to get the team together. The future looks bright! (Bet you didn't expect it in the middle of the article!).

Also joining the mighty Sachem hockey team is the new coach John Missori. The team welcomed him with vigor and he has brought a fresh new excitement to the players. Because he has run a successful hockey clinic, John knows what makes a winning team. According to junior Heather O'Leary: "He's got us a five week membership at Fitness 1st for preseason conditioning and for the 1st five weeks of the season, we just focused on skating. We didn't pick up our sticks at all."

The team usually practiced at the O'Brien Rink in Woburn or the Cranin Memorial Rink in Revere. Though these are hikes, the turnout for practice was great. Practices seemed to be a fun time and a learning experience. Though the Sachems may not have won every game, they've learned that heart and determination can take you to the top.

# Boys' Tennis

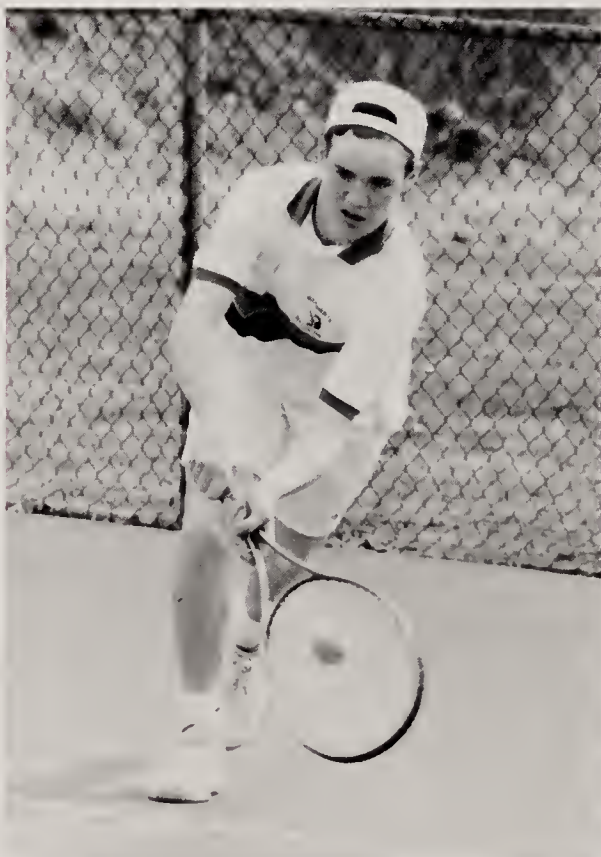

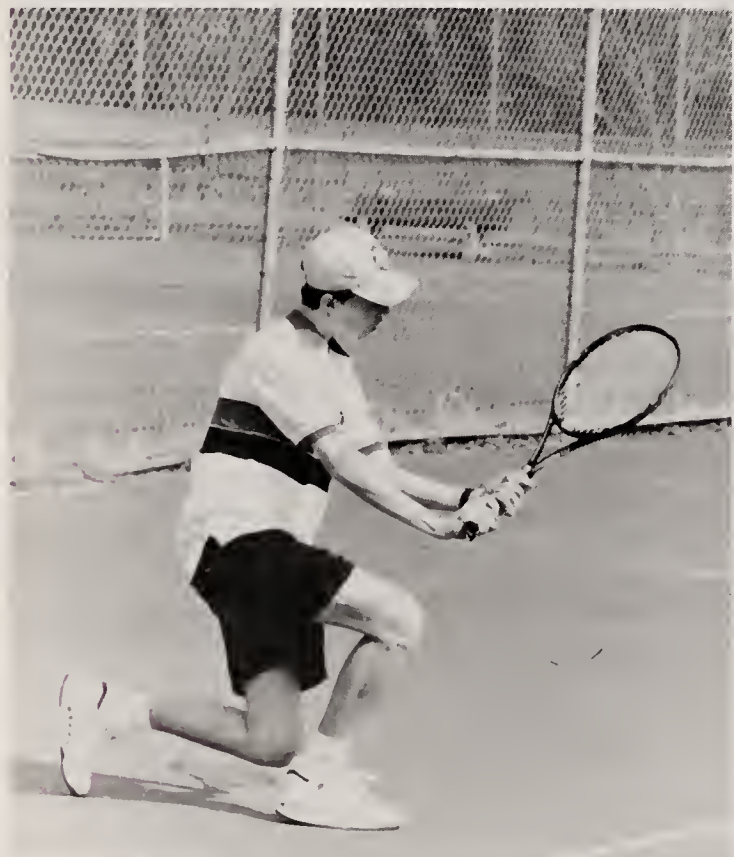

The 1994 Boys' tennis team was yet another champion in the great tradition of this team. Under the leadership of coach Sean O'Loughlin, this year's squad won its third straight League championship. The league clinching match, was won in dramatic fashion over Burlington 3-2.

The team was led by captains, seniors Tim Malcolm and Binh Ngyuen, and junior Matt Storeygard. The lineup was led off by freshman Kevin Colozzi, whose solid and consistent play earned him 1st team All-League. Our 2nd singles player was sophomore David LaCascia, whose dramatic win against Burlington clinched the league title. At 3rd singles we had junior Jeff Lucero.

Our doubles were the best in the league, not losing a match the entire season. This solid group was led by the League MVP team of co-captains Matt Storeygard and Tim Malcolm. The 2nd doubles team was Justin Wright and captain Binh Ngyuen. This team's excitement and enthusiasm led to a 1st team All-League award. There was also a host of others who saw playing time, including juniors Sean Duffy and Nate Tarin,

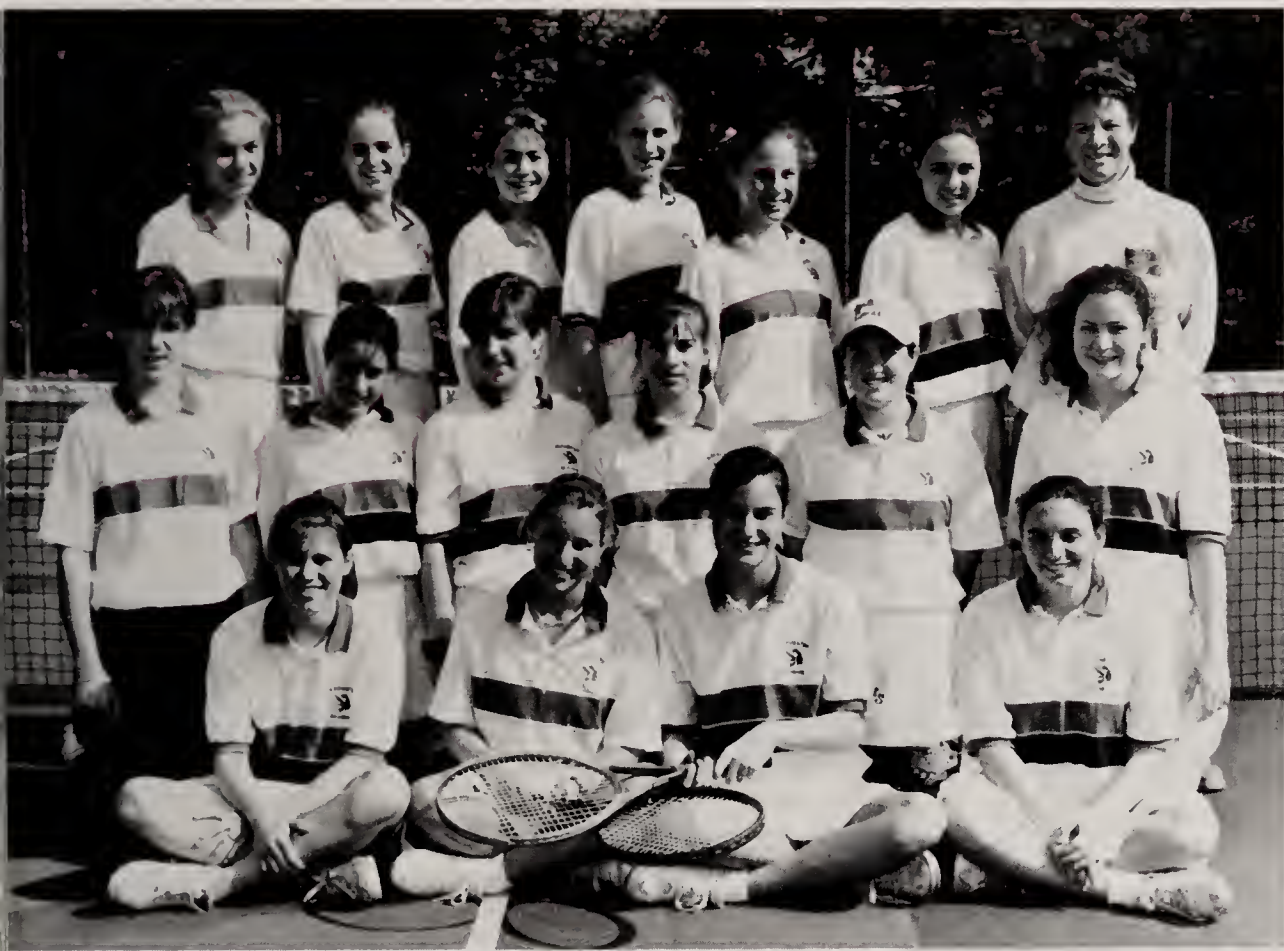

sophomores Doug Hintlian and Matt Salter, and freshman Mark Rowe, Karl Witt, and Aaron Quaday. With many returning players, there is hope of winning a 4th straight league title and continuing the bright winning tradition.

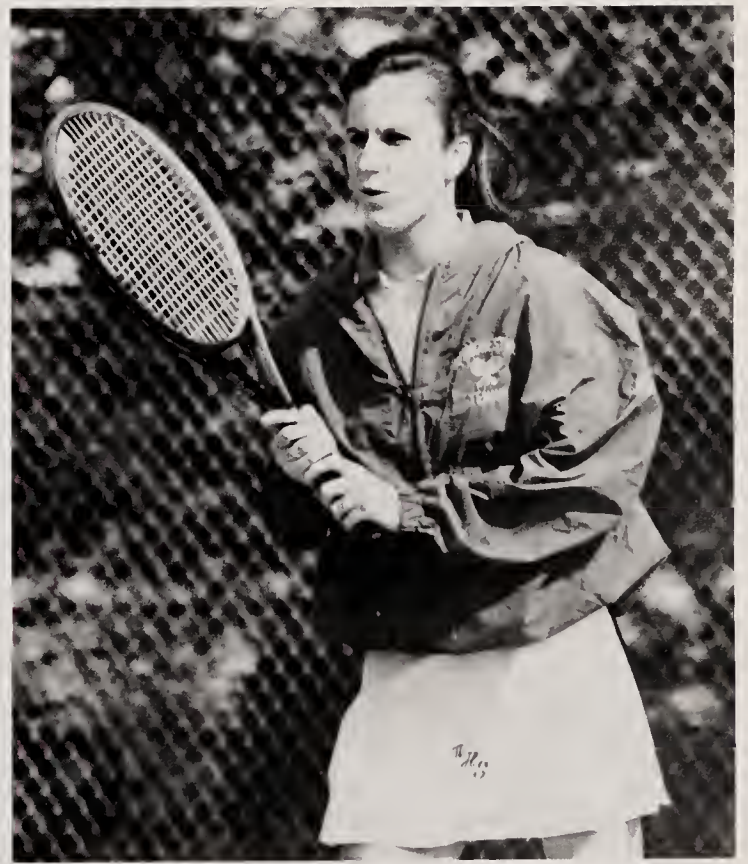

# Girls' Tennis

After the initial stress of challenge matches, the ladder was formed—the season could begin. This was the first year that the team wasn't overwhelmingly large, with only seventeen players. Two of these were the senior co-captains Jessica Livada and Kelly Smith, along with juniors Natalie Ciulla, Katie Hood, Michele Carpinteri and Teresa Cella. Despite the small size of the team, they proved to be a threat on the courts. Kim Bergin took over the number one spot, with her only losses to nationally ranked players. Freshman Kim Bohlin took over the second singles spot and quickly learned the tricks of high school tennis. Returning to her third position was sophomore Megan Hurley. Co-captain Kelly Smith and junior Natalie Ciulla had another unbelievable season at first doubles. With only one loss, this pair also made All Star, and All Scholastic standings. Freshmen Megan Rowe and Stephanie Lucero were the quiet duo that filled the open second doubles spot.

Thanks to a strong sense of team bonding and Mrs. Hood's invaluable "popsicle" days, the girls' team had a terrific season and next year's team's future looks bright! (Yes, that is proper English.)

As usual, the Girls' Tennis Team lived up to their high expectations. The 1994 season was certainly a successful one, regaining the Middlesex League Title. Mary Whalen returned for her sixth year as coach. Her words of encouragement led the team to many victories.

# Boys' Spring Track

The Spring Track team of 1994 seemed to be constantly trying to fill in gaps left by seniors. Luckily we had enough talent to accomplish such a task. It wouldn't have been possible if it weren't for some key track members. Jeff Sullivan, Christian Macek, Chad "I get to run the 1/4" d'Entremont, Paul McGeehan, Brandon "X" Smith, Jamarll "6 foot what?" Johnson, Frank "I only get 3 steps" Frisoli, Mike "I throw stuff" Wallwork, Wes Hwang plus outstanding Freshmen Brad "Whatever" Verrecchia, Jamie "If only I was Max" Tabcdefg... and Adam "you owe me \$20" Minihane to mention a few.

One of the most important additions to this year's team was sprint coach Randy King who brought a whole new perspective to the team. We struggled through the '94

season and had quite a few guys make an appearance in the area State Meet. Don't you feel like you've read this article before? Last year? A couple pages ago maybe? Do you dare turn the page? Does anyone read these freaking articles anyway? If I randomly start typing in letters will you even notice? dsahf kds kjd fkc njsdf dskjhda It's called space filler, haven't you ever heard of it? Don't ask any questions, just deal.

# Girls' Spring Track

This Spring Track season greatly differed from any previous season. Randy King was the short distance and jumping coach assisting Mr. Cantillon (the best girls' coach).

Mr. King's workouts were extremely difficult due to his experience as a runner in the Nationals. Mr. Cantillon enjoyed the idea of the team experimenting with a new routine. As always, the boys' coaches, Mr. Kline and Mr.

Malone, never failed to help out and to support the girls in practice every day.

The three senior captains, Allyson Livada, Sarah Bonnell, and Jenna DeSimone, led the girls' team. They were great role models and were inspirational to everyone. Allyson, although injured this year, had broken the school record in the 200 yard run her junior year. She also contributed to the team as a long jumper. Sarah, the team's best long distance runner, participated in both the one mile and the two mile races while Jenna perfected both the high jump and triple jump.

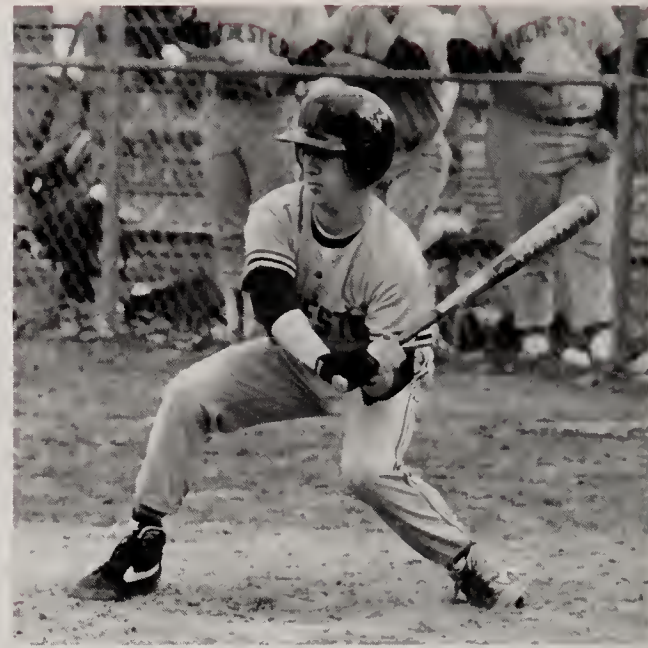

The 1994 Spring Track season was a season of experimentation. It was a chance to grow, improve, and learn. Whoops, don't want to forget they have a bright future too.

# Boys' Baseball

With eight experienced starters returning to this year's line-up, the WHS Boys' Baseball Team has all the possibilities of having a successful season. Coach Bill Chase will be returning after a leave of absence last year and will try to lead his "scrappy" troops to the State Tournament. Last year's Captain Mike McGreenery will be starting as catcher for his third season and will lead the senior infield. The infield consists of Rodrigo Serrano at first base, Matt Elio at second, Paul Wile at short stop, and power hitter Jarrod Galante at third. The pitching staff will be led by Jamie Doto along with Andy Sullivan, Rodrigo Serrano, and Bill Shields. The outfield will also be full of starters from last year including: Mike Millerick, Paul McGowan, Chris Germain, and Andy Sullivan. This is not the largest baseball team ever, but it promises to be one of the brightest.

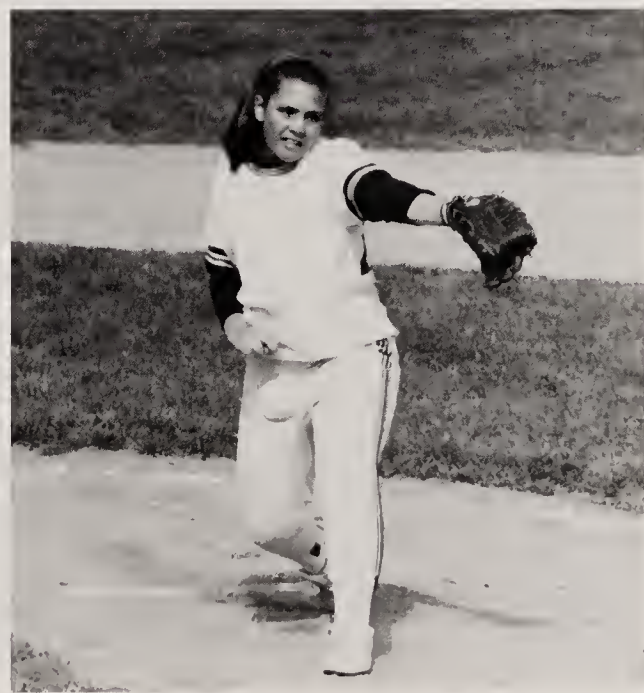

# Girls' Softball

Winchester Softball appeared to take a major step forward in 1993, but the 1994 season proved to be disastrous. With solid pitching and fielding the squad never found itself out of a game. However, the bats never became lively and the team finished with just one win. The 1995 team returns with eight players from the 1994 squad and Coach Cahill for her first full season as varsity coach. Pitching should again prove to be one of the strongest positions on the field with the trio of senior co-

captain Janine Allen, Bonnie Benson & Kristen McKinley. Also returning are senior co-captains Julie Russo and Mary Keefe, plus Katie Daley, Cindy Mouzakis, along with Michelle Russo. Although the team has to struggle to regain the ground it has lost in the past, with hard work and determination the team will persevere. Softballers intend to go back to the (bright?) future in the 1995 season.

# Boys' Lacrosse

The 1994 lacrosse team experienced a year of success due to having one of its most talented line-ups in recent years. The depth at each individual position allowed this team to reach the state tournament and accomplish many of their goals.

The attack position was led by Nat Haskell, who not only electrified the crowd with his beautiful goals, but was able to pick cutters with passes during the crunch time of a game. Alex Cubi, Tighe Smith, and Chris Donovan showed exceptional speed and stickwork that were vital during latter parts of the games.

The midfield had a solid defense and an explosive offense that forced opposing teams to regroup their strategies. Stopper Donaghey showed the versatile strength at midfield and senior Dave Maher played well throughout the entire season. The cohesive defense, led by Wes Matthews and Dan Boffo, concentrated on the physical, stick-checking of opponents' attack lines. Mike Clare, who missed part of the season, played a key role in the net as he demonstrated amazing saves. Matt Jamison also filled in nicely. With the right combination of size and speed, this highly talented team experienced one of its brightest years ever.

# Girls' Lacrosse

The year of 1994 marked a momentous year for the girls at WHS, the first ever Girls' Lacrosse Team. The team was coached by Kim Donolon and assisted by Sue Ontso. Although there were Varsity and J.V. teams, it was not decided until the day of the game who would play on which team.

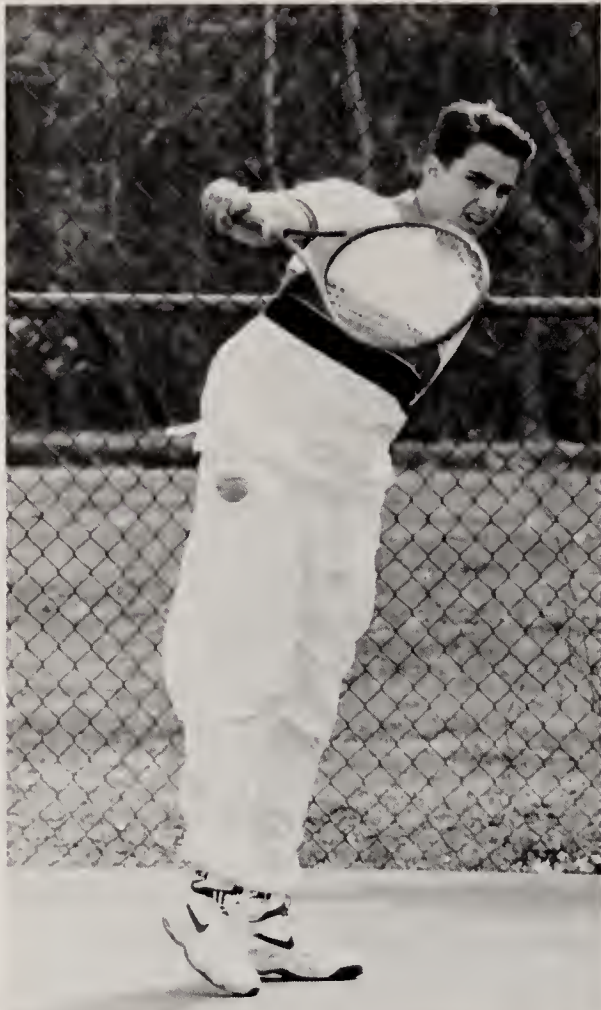

The team was led by seniors Jen Rauseo, Lea Casilinuovo, and Rebecca White. Some of the key players on offense were: the Borges twins on attack wings, and the goal scorers Ellen Wile and Danielle McCarthy. Karen Shanahan, Tiffany Hughes, and Rebecca White in the home positions proved to be a very successful combination.

On defense, there were powerhouses Maggie Meagher, and Jill Nagle. The key defensive players were Carolyn Abbanat, Colleen Curley, Jessica

Fougere, Michelle Lentine, Caitlin Maher, Ann Rubenstein, Ali Halchak, and Allison Wright. Jen Rauseo did an excellent job scoring two goals and playing defense after a knee injury that lasted for most of the season. In goal there was Lea "no fear" Casilinuovo, while Melissa Tavaras played goalie for J.V. It was a year for building and learning, and although the scores were not great the team managed to stick together (no pun intended). GOOD LUCK NEXT YEAR!

## “It’s a Hard Knock Life”

Sure, *we all want* to ace the SAT (or ACT), nail the SAT II, top the class ranks, and not to mention pass our classes and make the varsity team. Junior year is the year one makes it or breaks it. Everyone expects us to rise above and beyond the call of duty. Varsity coaches, parents, teachers, classmates, and counselors are *relentless* in their demands.

However, there is a sunny side to the Junior year that almost makes it worthwhile. Fringe benefits include: open campus, Junior Prom and the anxiously awaited license to drive. It’s not an easy year, and no one ever said it would be. The common phrase, “No pain no gain,” comes into play and charity is a rarity. It’s time to buckle down, and stop singing the blues ‘cause **THIS IS THE YEAR THAT MATTERS THE MOST ON THE TRANSCRIPT!**

## “Pump up the Volume”

Speaking from experience, this is the year to PAR-TÉ. The homework load is as comfortable as it's ever going to get. Don't worry about rushing through this year because the only reward for becoming a junior is *open campus*. This is true! You learned the ropes last year, so going to the wrong lunch is no excuse for being late. Life is a breeze except for that terrifying ten pager in AEG. Consider yourselves lucky, you are still one year away from true, academic pressures: i.e. the SAT, GPA, ACT, and LMNOP. Appreciate where you are at because it's not going to last forever. **THIS IS THE YEAR THAT .... ALSO GOES ON THE TRANSCRIPT.**

## “Welcome to the Jungle”

Is it me or do the freshmen always seem to “dress to impress?” After the first few weeks of school they finally settle down and feel more comfortable about being in high school. What first appears to be totally unfamiliar to them soon becomes second nature: kicking open lockers, finding their way around the maze of hallways, and learning not to take the advice of upperclassmen- “Hey frosh, are you looking for the pool, hang a right at the auto shop and you *can't* miss it!” Who knows, maybe by senior year you will figure out the schedule. Don't worry if you can't, no one else around here gets it either. Four years from now, you will look back on your Freshman year and be filled with memories. No matter what they are, good or bad, at least there is one thing that you can say about Freshman year, and that is *you made it*.

## Julie Russo

Over the past four years Julie Russo has made quite a name for herself at Winchester High. She has proven to be one of the best athletes ever to come through this school. As a sophomore, Julie had already earned her varsity letter in soccer, basketball, and softball, and now as a senior she has been elected to lead all three of these teams. Julie has always had a powerful influence on her teammates. She is the type of person who people admire and listen to because she speaks with actions rather than words; she is a leader by example. Julie is probably the most dedicated and hard working person I have ever met. She is someone who could never be satisfied with doing something second best. I suppose this is the

reason why she has had such success and has earned numerous awards and titles throughout her high school career. Over these last few years she has not only been elected captain of three varsity sports, but she has also been acknowledged as an All-Star several times in

each. Last fall Julie was even named All-Scholastic for the girls varsity soccer team.

Julie also extends far beyond the outstanding athlete that most people know. Her hard work and dedication are evident in her school work and social life as well. At school, Julie is a consistent honor roll student and takes a great deal of pride in her work. Outside of school she is a dedicated friend, she is honest, trustworthy and fun to be with; everything a true friend should be.

It is nearly impossible to accurately describe the great athlete, person, and friend that Julie is. Julie Russo is simply a great person all around!

"They don't call me Tysanosauro  
Sex for nothing."  
—SEN. TED KENNEDY, THROTTLED AS BARNBY THE  
DINOOSAUR AT HIS CHRISTMAS PARTY, QUOTED IN  
The New York Post  
Does the Tysanosauro Sex  
have water wings??

It's finally happened and this time the waves of change are on the Republican side. After 40 years of capitalism being held hostage,"The Great Society" is out and the government of the people is in. This is a great era for our generation to enter, at a time when it is our turn to make futures for ourselves. We enter an era where those who choose to reach for success will not be punished for their achievements. Although this state still chooses to have men like Ted Kennedy represent it, a new era has taken grip nationally with inspiring new leaders such as Newt Gingrich and Rush Limbaugh. With such positive movements, as these this could be the generation that reverses 40 years of decline!

Hold the past within your heart, cherish it, and know nothing will ever be exactly that way again.

Remember how it used to be  
When the sun would fill the sky  
Remember how we used to feel  
those days would never end  
Remember how it used to be  
When the start would fill the sky  
Remember how we used to dream  
those nights would never end

No longer mad like a horse I'm still wild but not lost from the thing that I've chosen to be

True friends never see each other for the last time.

Many are the plans in a man's heart, but it is the lord's purpose that prevails.

I love you for the beauty your life has overflowed to mine. This is not goodbye.

When Anne and I go out for a walk,  
We hold each other's hand and talk  
Of all the things we mean to do  
When Anne and I are forty-two.

To all the Anne's in my life, we will do those things.

When I was One,  
I had just begun.

When I was Two,  
I was nearly new.

When I was Three,  
I was hardly me.

When I was Four,  
I was not much more.

When I was Five,  
I was just alive.

But now I am Six, I'm as clever as clever.  
So I think I'll be six now for ever and ever.

To the Plaids, very simply, you guys mean the world to me.

Thank you, Mom, Dad, Sean, and BK, I love you, you've always been there.

To everyone I love dearly and hold close to my heart,  
Please stay six, never lose your sense of wonder and keep your memories forever.

## Heather Ducey

Heather Ducey is many things: a talented actress, a student deeply involved with the music department, a fiercely dedicated friend, and an avid Joplin fan. Heather manages more in a week than many people accomplish in a month.

Heather is a member of the WHS chorus, as a definite contender for the Lowest Alto who ever lived, and a devoted band geek. She is currently a member of the concert band, marching band (of which Heather has served as drum major), jazz band, chorus, orchestra, and the octet. Outside of school, Heather is a part of an acappella singing group, 'Temporarily Plaid,' which has sung at countless events throughout Winchester.

As an actress, Heather is a great asset to Winchester High School drama. A member of Curtain and Cue, Heather has been involved with dramas and the musicals at the high school since her freshman year. Outside of the High School, she participates in plays put on by KYTE—the Winchester youth drama ensemble. Heather also shares her talents with the many children she works with at Kidstock's youth theater. There she spends many an afternoon working as a teacher sharing her love for theater with young performers.

Busy as she is, Heather gives each activity her full attention, energy, and unwavering commitment. (. . .and in her spare time she worships Allison Swap) Without a doubt, Heather's greatest contribution to WHS is the unconditional caring she gives to every individual who is lucky enough to know her. Whatever of her many activities Heather may choose to pursue, she will undoubtedly continue to touch the lives of all who meet her.

We're finally at the top of the roller coaster of life. We had a lot of fun getting here, but the real ride's about to begin. Remember, no matter how afraid you are or how much you feel like throwing up, open your eyes and enjoy the ride.

Mike- There's no one I'd rather clown around with. There's a little Picard in all of us. Pete- Uh... what? Try not to burn down the world with your lighter. Karl- Smashing stuff is cool. We did so many cool things. Matt- The nicest democrat on earth. You're the only person I ever felt I could really talk to.

To everyone else- I only wish I could have known you better.

Best of luck to everyone.

Yo what's up. High Schooo was so cooo! What's goin on men. I loved coming to this school everyday. Everywhere that I looked, all I saw was meats. Wile & Mac, some wild times. New Year's Eve '93, oh what a night. Never forget taking out the car. Look out for Beatrix, Alex, Felix, Rex, and Max, they're on the prowl. Paul, great parties. some cocoa ? The Loft rules, do the rave man. Capt. Savaggio lives on, stay out of Quincy. Feola, great parties, I should pay you rent. Have some apple pie or a baked potato. Gary, great sweats, Eagles rock, get over it. Wes & Bob, never forget the meat factory. We are the true meats. On the holidays we'll come home and nestle in a nook or cranny somewhere. Donavan, let's take some polaroids. Boffo, I had a crush on you for four years, but you never noticed me-see ya later, you should drive race cars. Germain, eeeeh! Hazlenut. Griffith, Immaturity rules. PGA- 4 EVA, Devils tooth. Tim & Steve-I love you like my sons. McGowan, Pruitt rules. I love you man. Worthen, Don't forget the old times in the locker room. Hey Den, now I am a College Man. The Meat Men of '95 are the most meaty men ever to wallow the crusty crust of this planet. I'm outta here, later.

## Christopher F. Germain

Meat Men '95. Dazed weekends at Feola's Cape house. How did I end up at Woods Hole? Would not have made it with out Feelgood, Feola, do you think you got my plate? McGoo- How'd we end up at Michelle's? Gary- have fun down the Cape, sorry about the room. Cheeks- great right hook at Buffett. Loon '94 too much fun to ski. Greg- watch out for the guardrail, T-Birds. Wes- best shotgunner around. Sunday River- let's beat up Elio. Crowley- you're big, Dude, that's not cool. Tommy- we will find the toobs somewhere. Jarrod- kick the soccer ball. Study Group at Feola's. Donovan- MacDaddy, where's my juice? Mike- Hasha, Let's sleep in the tree house. Sparkey- Where are you? Sorry about the scrap. Hampton Beach '94. Bob-that's your fake ID. Chad- Gary's basement. Way to ruin the rug. Griffith- How did we fall down the hill? This is an elite group of men that have been through it all and have had the best times doing it. We will not be separated or forgotten.

### A YEAR IN REVIEW

Freshman year, I have no idea

I can't remember a thing.

Sophomore year at W.H.S.

a little better I guess.

Junior year was good, tried as hard as I could  
to get into a good school.

Senior year was the best, I tried a little less  
'cause now, I'm cool.

Sawyer, Gianci, and Wallwork. Who's the tall kid? Yes Eric, I know he wears glasses. How come it took me until the end of sophomore year until I even realized I was in high school... it doesn't even totally hit you until you're almost gone I guess. Heap. I never thought THAT would go over 100. Gianci, I bought you a belt too. Sawyer has something with Z's. 6 is better than none, I guess. Quads what? Stop tool! I missed N.H., but R.I., now there's a trip, I'm all set. 4 years already- the friends, I will miss. The school, I don't think so. Thanks Mom & Dad, I'll miss you guys too.

I hear the echoing of calls & walls inside the halls, the halls. One last then none at all. Like every class or blades of grass growing old before the winter's pall. I hear the bell, the ring & tell, the phoney mass as each one last lift the painting glass. I hear no more. I grow small in this silent chore of wondering about what is what after all. That that was or is to be when the last goodbyes are lost & free like you and memory...Have a good one Buzz, Brian, Dave & Rookie, Goob, Scotty, Adam, garret, M-doo, and every those who ain't cool stay in a roll... -The Bridge-

This bridge will only take you halfway there,  
To those mysterious lands you long to see:  
Through gypsy camps and swirling Arab fairs  
And moonlit woods where unicorns run free.  
So come and walk awhile with me and share  
The twisting trails and wondrous worlds I've known.  
But this bridge will only take you halfway there—  
The last few steps you'll have to take alone.  
Thank you Mom, Alison, Kim, Dad, Bijou and Louisia.  
Take care friends. Good luck everyone.

## Peter Gustin

Peter Gustin must be one of the most unique individuals I have ever had the pleasure of knowing

Pete makes an easy balancing act out of a tough AP/Honors course load, while being a member of the Student Union Fairness Committee, playing two varsity sports, and holding the office of Class President since the 10th grade. Yet somehow he manages to have the most easy-going attitude about the whole thing, whereas most of us would be buried by the stress.

Pete was a starter on the Football offensive line and is currently the captain of the Swim Team. Though he was smaller than most of his opponents, he was determined to hold his own. Pete is a nationally ranked sailor, and every year, he participates in the Swim for Sight benefit raising money for eye research. Pete is not only an athlete and a leader, but also a talented artist—

which many people do not realize.

Many of you know Pete as the kid who wears sunglasses in school, or as the one wearing shorts in the middle of winter with quads like those of a gorilla. All of that stuff is important, but moreover I know Pete as the kid who can make me fall over dying from laughter with one simple look. He tolerates me when I am late picking him up for school, and when I won't stop joking around with him, he takes it all in stride. Pete is my best friend (aww, ain't that sweet!) and I hope he succeeds in life after high school because no one has worked harder or deserves more for their efforts.

## Amy E. Lerman

Seek freedom within.  
Through strength to dissolve the confines of absolutions,  
Where penance is met in society's appeasement,  
Find distinction in deliberate absence from others.  
If purpose its own amusement,  
May what is left be what is gained

Stand unaccompanied.  
That complacency may be uprooted,  
Transforming truth to duty.  
Internal inquiry that the rest might unfold,  
Hide nothing in the safety of manners,  
That none may benefit from this gentle deception.

And so, a christening  
In discovering a place of solitude,  
Where life may be experienced selfishly,  
Reaping the mind solely for its own benefit,  
For loneliness if self inflicted  
Then pain in company alone.

I am in awe of the power of you. You have all touched my life more than I could ever tell you. So much of what I am is what you have given me. You are my sun, my moon, my starlit sky. Look out for each other, okay? And don't you forget about me.

## Emily White

Emily White has met the challenge of high school and demonstrated personal success throughout. Her full course load was the backdrop for her initiation into the National Honor Society last year and presentation of the Holy Cross and Smith College awards.

In addition to outstanding academics, Emily has involved herself with many school clubs and organizations. For four years, she has participated in S.A.D.D., WHS chorus, the Spanish Club, Amnesty International, and WHS musicals and comedies. She helped found WHS's Multi-Cultural Forum and is currently a Steering Committee member. She has taken on the role of a leader in groups such as MCI, student government, Curtain and Cue, and the Winchester Youth Center.

Emily has faced and overcome life's many obstacles and challenges. In the course of four years, Emily has struggled, learned, and set an example for those who will follow her. She has been an outstanding student and friend; Emily returns all that she receives. Surely her success will not end here; without a doubt she will move on to surpass the achievement she has found in high school. Em- we wish you all the best!

*Emily Delpino*

"We've come so far so fast, but back there, somewhere in the dust, that same small town in each of us... let me take a long last look, before we say goodbye."

To those of you who helped me get up when I couldn't get down and further- I thank you, from the bottom of my heart.

To my family- The love & the pride you've shown me over the years means more than you'll ever know.

To those of you at WHS who chose not to accept me but to make "the best years of my life" miserable- I wish you & daddy's money lots of luck.

## Steven J. McRae

"You have brains in your head  
You have feet in your shoes  
You can steer yourself  
Any direction you choose  
You're on your own.  
And you know what you know,  
And YOU are the person who'll  
decide where to go.  
Oh, the places you'll go! "

Good Times?

## Ron Hall

Ron Hall is one of the most caring, understanding, intelligent, and talented athletes I've ever known. I've come to know Ron well over the past four years that we have spent in Winchester together. Ron has had a very successful four years as a student at WHS during his tenure in the A.B.C. (A Better Chance) program. He has established himself as one of the best track and field performers that Winchester High School has seen in years. Despite excelling in track and field in Winchester, Ron has also managed to earn the distinction of being one of the best football players in the whole Middlesex League. Ron is a quiet yet persistent student whose academic prowess has become apparent to all of his teachers and peers.

Socially, Ron has attracted many friends and associates who look up to him as a leader and as a role model. He is a true friend who willingly gives both his time and effort to those who need it. To know Ron Hall is to know a renaissance man—well rounded and complete. He's

someone who won't talk behind your back, who will work hard to excel in the classroom, and gives everything he has on the football field or the track.

Thanx to Mrs. Britt.

Thanx to Ms. Angus: you made Physics tough but fun!

Thanx to Mrs. Lanuoette: I never thought I'd make it to Latin 4.

BN, MG, KB, NK, BM, DF, CU, BS, TV, JG: it's been real!

Unfortunately all my sweet memories of WHS I can't remember.

Hopefully high school was the most stressful experience I will ever have. Although it was the worst academically, it was the best socially. I had so much fun w/ my friends, when I wasn't in classes of course. I made so many close friends that I shall never forget.

Emily: you made it easier to translate in Latin.

Cheryl: I loved harassing the Domino workers. Stay w/ Nick, he's good for you.

Amy: stealing Nick's car, drives by spring court, soco night, Saturdays at your house with the gang, Michael and his trips, everyone walking me home in the snow after the Christmas party. Thanx for all the awesome nights, too bad I can't remember all of them. Blackouts!

Chandra: sorry to leave you behind but I'll always be around. Breakfast on the tracks and at the deli was the best. Our activities in between classes made high school a lot easier to deal with. You changed my life forever. Remember to live for the moment and never change your attitude towards life. 143!

Sean: I will love you always!

## Jay Sawyer

Okay, it's been a great 4 years but I'd be lying if I said I wasn't ready to move on. Pete-I never met anyone who could make me laugh like you, Mr. Lazy, "the program" works, Gustin squats 700 lbs., call a greek paleface, just a couple men with mohawks and dark sunglasses in a '66 Mustang, kid you don't count, we only moved his car 30

degrees, 30-8-38, the sky is black, that's the hottest girl I've ever seen....CRASH! Oh, S— this guy's a Marine. Eric - Newport, I'm carrying a chair, just rag on me in the morning, how 'bout me and my buddy, Biancheria Fine, (I know I'm not Italian), you in there Sully?, it's a van not a truck, No, maybe your missing Anne, Nah, I think I'm all set, I heard that somebody told me...., Italy '95. MJW- "Caught from behind," Innes, No Juan, haya, husses, and carrera in Korea, you'll still always be a tackle, you've been getting s— for 4 years, you deserve a little senior respect. SJL- It's a good thing we found each other, too bad everyone cared so much, I love you (or something). Class '95 - in the words of the great Sean Duffey, "You can't always live life on one side of the street, you have to cross sometime."

Peter Stoltzman

I don't think that there is anyway one paragraph could sum up the personality of Peter Stoltzman. One would have to spend months with him, sharing time over coffee, in a museum, on a walk in the woods, or at Walden Pond late on a summer night. Pete holds a love of life that even a stranger can see simply by looking at his face. I have known Pete for three years now. The first time we met, we ended up laughing for hours on a bench outside of the Episcopal Church. As I grew to know him more, I found a bright, inquisitive, interesting, creative, and kind person (though these other attributes do not hide his talent to make me laugh). He is one of the few people I know who has a true desire for knowledge and who carries with him an open minded outlook on life.

Perhaps the most commonly known aspect of Pete is his musical life. Most people know of the effort he puts into the musicals, bands, and singing groups. Yet most people do not experience watching Pete drifting into the musical world inside his head or listen to him playing jazz on the piano in a dimly lit coffee house. One can see him pouring his whole being into the keys. He is soulful about his music, placing a great deal of hard work and creativity into it, and I believe this affects the way he lives his entire life.

## Peter Ju

Chaos, wisdom, fractals, ying/yang, curvatures of space—all these words may seem completely unrelated but when you add Peter Ju to the list, it all seems to make sense. As distinctive as each of those words are, so is Pete. When you're in class with Pete, you just can't miss him. He's the one squatting on top of his chair with his lanky legs bent in a contorted position that seems to defy the laws of gravity. But beyond his mere physical presence, he provides an intellectual force in the classroom that never ceases to amaze his peers and teachers alike.

His passion ignites the spark of provocative class discussions and his unquenchable thirst for knowledge inspires us all to think the unthinkable, question the accepted, and challenge the status quo. It is his desire to understand the "how" and "why" of everything that makes him so much more than what everyone would call "smart."

Despite all his achievements, you'll never see Pete brag or boast. I doubt there is anyone who is more full of earnest integrity and genuine humility than he. It all shows in his goofy smile and chortling laughter. Well Pete, I truly hope you find order in chaos, happiness through wisdom, and your ying/yang balance. Keep on juggling. . .

**A** lively new cafe society centers around the 5,000 gourmet coffeeshops which spring up around the country. To the often young and trendy patrons, the social interaction is just as important as the espresso. Some cafes offer full-time Internet links so patrons can sip and chat with other Internet latte-drinkers.

Besides recycled clothing like license-plate bustiers, bottle-cap jewelry, trash-bag and duct-tape dresses, fashion trends include the schoolgirl look with thigh-highs, and the grunge-turned-beatnik look of long, straight hair and a goatee.

**A** new survey shows that over 12 million Americans are vegetarians, choosing the no-meat lifestyle because of concern about animal cruelty, cost-efficiency, eco-friendliness and/or improved health and fitness.

Yoga, a Hindu system of stretching exercises for well-being, surges in popularity, mostly because the older generation seeks a technique for alleviating stress and finds yoga better than aerobics.

A hot new collectible derives from an old household item. Milk caps, known in some regions as pogs, originally capped the bottles left by the milkman but have now gone funky with colorful printed designs and variations that are traded and used in games.

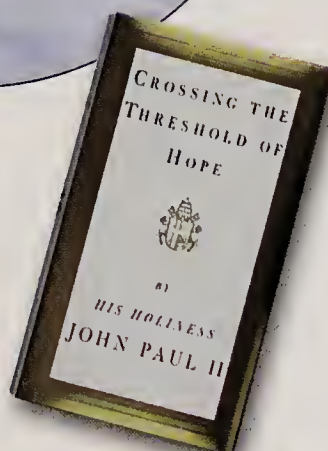

Although most are forced to settle for Oakley wrap-arounds, stylin' kids, like in-line skaters and urban youth, clamor for Arnet's \$80 Ravens with the silver-chrome frames.

Led by brash young skate and surf types, two million snowboarders nationwide discover the joy of swooping down slopes on one board instead of two. No hard boots, no poles, no crossed tips, make it easier than skiing. Since their giant frozen wave is a ski hill, snowboarders annoy old-style skiers who want their slopes left undisturbed by shredders.

Remaining a virgin in the face of peer pressure finds new respect among teens who defend their freedom to forgo sex in a sex-crazy world. The movement is both a demand for real love and a reaction against unwanted pregnancy and health risks, since today one out of four kids are infected with sexually transmitted diseases by the age of 21.

The designer pets of the year are African pigmy hedgehogs, and some 3,000 find homes with humans. They are gentle, like to be petted, and need a once-a-day feeding of pet food or mealworms. They don't smell and will even eat your roaches.

John Travolta and Samuel L. Jackson star in *Pulp Fiction*, an "extravagantly demented low-life lalapalooza with outlandish twists." The film's plot revolves around a watch, a briefcase, and a large syringe in a darkly humorous scene which reportedly causes a few audience members with needle-phobia to fall out of their seats in revulsion.

John Candy, the large and lovable star of films *Splash*, *Cool Runnings*, *Home Alone*, and many other family favorites, dies at the age of 43. Whether Candy played jerks, slobs or loonies, his natural goodness came shining through.

## PROMISE YOURSELF

To be so strong that nothing can disturb your peace of mind.

To talk health, happiness and prosperity to every person you meet.

To make all your friends feel that there is something in them.

To look at the sunnyside of everything and make your optimism come true.

To think only of the best, to work only for the best and expect only the best.

To be just as enthusiastic about the success of others as you are about your own.

To forget the mistakes of the past and press on to the greater achievements of the future.

To wear a cheerful countenance at all times and give every living creature you meet a smile.

To give so much time to the improvement of yourself that you have no time to criticize others.

To be too large for worry, too noble for anger, too strong for fear, and too happy to permit the presence of trouble.

## CONGRATULATIONS SARAH

Remember:

Be Creative

You're the artist here. You're the one who can brush away the clouds and make the sun shine. Paint your own picture, choose your own colors. And forget all that business about having to stay between the lines.

You have always made us proud of you. You really do amaze us. Your determination will help you hold onto your dreams.

When you sparkle, you always light everyone's life.

**MAY THE POP EYES FOLLOW YOU THROUGH LIFE.**

And always remember:

Smile a while and while you smile there will be miles and miles of smiles because you smiled.

Always be happy. We love You Pee Wee.

Mom, Dad, Sonya & Grammy

Emily,

Always with such  
joy I have watched  
you grow from a  
happy imaginative  
little girl into a  
courageous young  
woman.

Remember:

Thursday's child  
has far to go. I'm  
so proud of you.

Love, Mom

## CONGRATULATIONS MEREDITH

Where are you going my little one, little one  
Where are you going my baby my own?  
Turn around and you're two, turn around and you're four  
Turn around and you're a young girl going out of my door.

Where are you going my little one, little one  
Little dirndles and petticoats, where have you gone?  
Turn around and you're tiny, turn around and you're grown  
Turn around and you're a young wife with babes of your own.  
—Malvina Reynolds, Alan Greene & Harry Belafonte

LOVE

Lucille and Ida —

I'm going to miss you, you big pictureheads;  
but the memories we had together will stay  
with us forever.

Love always,  
Doris

As a child we loved and cherished you.  
As a young adult we love and admire you.  
May you one day know the happiness of  
loving a beautiful daughter like you.

## *Ode to My Friends*

Before I knew you, life had not really begun.  
I didn't know of the great times to come.  
At the moment we met, a friendship was born,  
A bond was tied which could never be torn.  
Through the years, it grew tighter and stronger.  
And though next year we'll be together no longer,  
Take with you all of the memories we've shared  
And know your true friends will always be here.  
No matter how many miles or how many days,  
Just call if you need me in any way.  
You were there for me, so I'll be here for you.  
The best of friends, the truest of true.  
So promise me now you'll not let go,  
but continue to make our friendships grow.

Michele, Lindsay, Katie, Shannon, Allison, Becky, Jessica, Sarah, Natalie, Julie

# Congratulations Teresa!

# A HOMEOWNER'S POLICY

## Assure Peace of Mind Insure Against Loss

### *Expert personal service*

Fact is, a home is the largest single asset most people acquire in a lifetime. As such, it deserves the best possible protection against loss. A homeowner's policy provides the best dollar-for-dollar protection value.

### *Free rate quotation*

### *Immediate coverage*

- One policy does it all. A homeowner's policy includes coverage for your home and other structures on your property, as well as your personal possessions—from your living room furniture to the clothes on your back.

### *Nationwide claim service*

- A homeowner's policy can even provide for increased living expenses if your home is ever damaged to the point of being uninhabitable.

### *Flexible payments*

### *Money-saving deductibles*

- If any person is injured on your property, a homeowner's policy provides a minimum of \$100,000 for liability should a lawsuit arise.

### *Complete insurance services*

At **Saltmarsh**, we are **dedicated insurance experts**, well qualified to discuss your insurance needs for coverage—from summer cottages to corporate headquarters, compact cars to **private** jets. With complete insurance services for auto, home or life, we are committed to working for your needs so that you can enjoy the rest of what life has to offer—with peace of mind.

9. Flipping through a million and one candids.
8. John Neister
7. We like school so much we stay 'till 6 (actually, more like 11).
6. The skills we learn insure us of a bright future!
5. Tetris™
4. For the money.
3. The cropping tools are our friends!
2. Doing Blurbs. . .
1. . . again and again!

## Top Ten Requests of the 1995 Yearbook Staff

13. . . and the future looks bright!
12. PRINT damn you! PRINT!
11. Can we go home now?. . . please?
10. We should get a phone!
9. Are there any other menial tasks I can do?
8. Oooh, I got a Tetris!
7. Is it too late to turn my blurb in?
6. I AM in a good mood dammit!
5. We should come in on a Saturday!
4. Where is "the bible?"
3. How many pages do we have left?
2. Rachel, what's burning?
1. Can we say .... in the yearbook?
